

## BSMGAC Flash Drive from Carlisle to Bolton, MA

Due to poor weather, we had to postpone our drive on May 30 until June 12, 2021. We gathered at Fern's Country Store at the rotary on Carlisle, MA at 10 am and departed on the drive at 10:45 with 3 cars. We drove through Westford and into Groton and Ayer and Littleton on the back roads and took Littleton Road into Harvard Center. From there we took the road over the hill into Bolton and down Route 117 to Bolton Orchards to pick up some lunch items. We then proceeded down Route 117 to Lancaster to the Bull Spit Brewery at Kalon Farm to pick up drinks. The store was open but the pub and grounds were still closed do to local Covid Restrictions. We then drove to Chuck O'Neal's house and had our lunch in his garage upstairs bar. After lunch we proceeded to his large garage/barn to see his car collection, particularly his recent purchase of a 1994 MG RV8 and his Aston Martin DB7. We also enjoyed seeing his MGA, Morris Minor convertible, Ford Model A and his Model A hotrod. We were also given a tour of his basement electronics workshop and his Ham Radio operation along with his vintage radio collection.

This was our first trip with new members Bill Yoder and his wife, he was at our tech session this spring in his freshly restored MGA MKII that was done by Little Foreign Car Garage in Waltham, MA. Chuck and Debbie drove their MGA MKII and I drove my MGA 1600 roadster. The weather started out a little cool and cloudy, but it warmed up and turned sunny. We had a beautiful drive and good company. Bill and I drove back via Route 110 to Harvard and then Old Littleton Road to Littleton where we went our separate ways. It was a small turnout but because of short notice it may have prevented better participation, but all who attended had a great time. We plan to have more Flash Drives as weather permits. I hope to see you on some of them in the future.

Safety Fast,  
Jack Horner
