

NAMGAR Drive Your MGA Day Report

We had beautiful weather on May 6, 2023 to drive our MGAs. Gary and Terri Jones, Dick Fabrizio, Bill and Jane Yoder and Jan and I drove out 4 MGAs from our house in Westford to Bolton Bean in Bolton, MA along winding back roads to meet up with Chuck O'Neal and his girlfriend, Debbie, and new members Steve Essman and his wife with their MGB. After a little time to chat and catch up we headed west on back roads through Bolton, Lancaster, Clinton, Stirling, Princeton, and Hubbardston to Barre to the Stone Cow Brewery. We arrived just at opening around 12:00 and found a place to sit down and enjoy a beer. Don and MaryJane Tremblay arrived shortly after to meet us there. There was lots of lively conversation and catching up with those we have not seen in a while and also introducing new folks to each other. We were able to order lunch before it got too crowded (as this place is very popular in good weather!) Don brought out his traveling tooling parts kit to show Gary and Terri since they are scheduled to participate in the Great Race from St. Augustine, FL to Colorado Springs, CO in June. They will be driving their MGA and Gary has been preparing it for the past couple months. It is the far right white one in the picture.

Dave Beckwith also took his MGA for a drive this day, but on his own. I have not heard if others took their cars out even for just a short jaunt.
