

MGs (including mine) at the Historics

I was at the holy ground of vintage racing on Labor Day weekend...in beautiful Lime Rock Park and the 100 year anniversary of Morris Garages and MG.... the featured marque of the event. Our Bay State MGA Club was well represented with my 1960 MGA in the MG featured racing group. We finished all 6 races in a group of 36 post war MGs, TDs, TFs, MGAs and MGBs in some very hotly contested racing. We only had one minor glitch with a rear axle seal failure that coated the rear brake with oil on the last day of racing, but frankly, I couldn't tell the difference. The front brakes do most of the work anyway. Thanks

My group of 36 cars proved very crowded on the track, especially at the start when all 36 cars are heading into the first corner together!

The long weekend starts Thursday with the invitation only parade of cars from the track to Falls Village and the street party.

Friday and Saturday was racing at the track and Sunday, the Gathering of the Marques with some 700 cars parked around the track with 1000's of spectators and enthusiasts, and a hotly contested concours. Monday was another full day of racing.

We were blessed with great sunny weather the entire holiday weekend.

Cars, more cars and lots of cars. This is the largest vintage racing event on the east coast. See you next year!
